

2009 Project Resource Assistance List

This list consists of both individuals and businesses that have expertise in their given area. They have agreed to be project resources for Clark County 4-H. You may contact them with questions about your project. Please be courteous, they are volunteering their time to help you. Please note most are not 4-H volunteers (i.e. leaders, board members, etc) and have not had background checks. Refer to your 4-H handbook for specific project requirements. If you contact or visit anyone on this list, take your project manual and handbook with you. If you have a question about how to assemble your poster, call your leader or the Extension Office. For technical questions about your project, this list may be of help.

Member/ Leader Evaluation of Assistance Resource

1. Who did you contact?
2. Was this person helpful?
3. Additional comments/ suggestions?

Please return this form to your club leader, the adult leader organization, or committee members Missy Stephans, Ardis Kimmel, or Jamie Lynch. Or email missystephans@hughes.net with the information. If someone does a great job helping your 4-Her or if they are no help at all we want to know to make improvements for next year.
